04. Our Clients

We focus to provide products and services covering;

- a. Business Advisory,

- c. Management Consulting Services,
- d. Corporate Management Consulting,
- e. Human Resource (HR) and Succession Planning,
- f. Research and Development Services,
- g. Security Consulting, and
- h. Training and Development.

About 70 percent of these services target the micro small and medium enterprises (MSMEs), while the remaining 30 percent is to organized and big organizations, both in the formal and informal sector, public and private sector of the economy respectively.

MSMEs though contributing more than half of the private sector employment and almost half of the country GDP are literally neglected in terms of business advisory services to enable them run their operations professionally. This informs our thought decision.
